

## Emerging Threats & Technologies Working Group

### Trinity 2024 Term Card

**Time:** 17:00 - 18:30 BST on Mondays unless indicated otherwise

**Location:** Pembroke College, Eccles Room (Primary); Hertford College, Old Library/Boyd; +MS Teams

Please be aware that group attendance may be limited. Please contact Group Lead Christopher Morris or team ([christopher.morris@politics.ox.ac.uk](mailto:christopher.morris@politics.ox.ac.uk)) for attendance and inquiries. Seminar details are confirmed a week in advance.

The Emerging Threats & Technology Working Group meets regularly each term to examine the national security implications of critical and emerging technologies (CETs), from artificial intelligence and quantum computing to directed energy and space platforms. Meetings are held in hybrid format, at Oxford and online, to include diverse views from academia, industry, and policy, matching the global reach of technological innovation and challenge.

For more information on workshops, sessions, and journal, visit [www.emergingthreats.co.uk](http://www.emergingthreats.co.uk)
