

Photographic Portraits in Hall: 2022

In order to celebrate the life and achievements of recent generations of Pembroke students, the Governing Body determined in 2017 to hang, each year, a different selection of photographic portraits in our Hall. The six alumni have been chosen from a long list held by the Art Committee in consultation with all Fellows, MCR, JCR and Alumni.

These images offer our current students - we hope - an inspiring picture of the many walks of life in which Pembroke students have successfully found their place in the wider world.

Jane Carter (1979, Agriculture & Forest Sciences: Senior Adviser at the Natural Resource Governance Institute)

Jane Carter was inspired to study Agricultural and Forest Sciences as a pathway to working in rural development, and has travelled that path ever since. She has lived and worked in Kenya, Sri Lanka, India and Nepal – the latter being the country in which she conducted fieldwork for her DPhil (Oxon), 1991. This entailed living in what was then the remote village of Suri, in Dolakha district, for 18 months. She has worked for the Swiss NGO Helvetas for many years, including a return to Nepal as the Director, Programme Development over 2017 – 2020. This photo was taken over that period; the red "tikka" (in Nepali) on her forehead and the marigold garland were given by villagers as a traditional mark of welcome and blessing. Now based in Switzerland, Jane's current professional engagement is focused on biodiversity conservation in the context of sustainable local development.
